

Experience the First Blue

Identica **Blue**

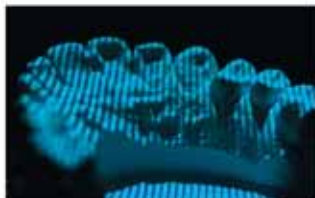

Innovation in Technology from every angle

Industries leading accurate scan data using Blue LED technology
I.M.V (Intelligent Multi View) technology for better impression scanning
Simple scanning process guided by our user-friendly interface
Fully open and wide platform

Applications

The Identica Blue is equipped with industry leading blue light 3D scanning technology that provides superior data quality with improved sharpness & measurements across the entire object. Medit's newly developed and patented scanning algorithm "I.M.V" enables the acquisition of 3D data from hard-to-scan areas like thin areas and impressions.

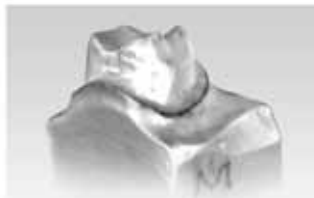

Your convenience is our top priority, and it inspired us to develop our Identica scanning software with its new user-friendly features. It will guarantee you get the maximum productivity & efficiency from your CAD/CAM system.

Key Features

Blue Light Technology

The new Identica Blue Scanner employs Blue LED technology that delivers superior data quality with our improved scanning algorithms.

I.M.V (Intelligent Multi View) Scanning

The New I.M.V scanning technology ensures the acquisition of high quality scan data, which makes scanning job's more cost-efficient and increases productivity. Some conventional scanners have adopted dual-cameras but with limited applications for deep and narrow areas. However these hard-to-access areas are no hindrance to our latest development, the new Identica Blue.

Texture Superimposition

The features of 'Texture Superimposition' will not only speed up the modeling process, but helps you create designs and find margin lines the way you intended.

Intuitive Scan Process

The Identica Blue comes with ground breaking improved impression scanning capability to help you simplify your workflow.

Open and spacious

The Identica Blue has a fully open platform where conventional closed-platform scanners do not, bringing the maximum in user convenience to 3D solutions for all your dental applications.

Cost Effective

The Identica Blue comes at an affordable and reasonable price and with no compulsory license fees will save you money for years to come.

Specifications

Category	Description
Light Source	Blue LED
Scanning Area	80mm x 60mm x 60mm
Dimension	290mm x 290mm x 340mm
Weight	16kg
Interface	USB 3.0 (2.0) High speed
Power	AC 85V~265V, 47~63 Hz
